

I have been told that LPFM may effect some of the KLOVE stations. This radio program is very helpful in out community. It helps people when they are feeling down and brings them to a better spiritual understanding. If this station is replaced by some other programming it would have a huge impact on the community. I know many people that only listen to this program and there have been many people who have begun a personal relationship with Christ because of a message they heard on it. Basically I think this program promotes peace and love which are things that are desperatly needed in our communities today.
